Alice UMUBYEYI
0790 038 006 | aliumubyeyi123@gmail.com
Frontend & Backend Developer | Java | React | Next.js | PostgreSQL
GitHub: github.com/UAlice1

Education

Catholic University of Rwanda – Huye
Bachelor of Science in Computer Science (Ongoing)
GPA: 4.0 / 5.0

Programs & Certifications

- SheCanCode Backend Graduate
- SheCanCode Frontend Graduate
- ALX AI Essentials Graduate

Experience

Frontend Developer Intern – EnnerPower TechSolution
Jul 2024 – Oct 2024

- Built responsive UIs using React and Tailwind CSS from Figma designs
- Integrated frontend with REST APIs to deliver dynamic content

Freelance Web Developer – KeyPower Engineering Ltd

- Designed and developed the official company website using Next.js and TypeScript
- GitHub: KeyPower Project

Backend Developer – SheCanCode Backend Program
Completed (Mar 2025 – Jun 2025)

- Developed secure RESTful APIs using Java and PostgreSQL
- Implemented user authentication and authorization mechanisms

Frontend Developer Trainee – SheCanCode Bootcamp
Sep – Dec 2024

- Final project: Developed DreamDay Rentals, a React-based app with reusable components and clean architecture

---

Projects

Student Management System – Java, PostgreSQL

- Built a complete CRUD system with secure login
- Applied DAO pattern, table relationships, and normalized data structures

Plog Platform API – Java, Spring Boot, PostgreSQL

- Designed and implemented RESTful APIs for a waste tracking app
- Included user roles, JWT authentication, and data reporting

Hospital Management System – Java, PostgreSQL

- Created a system to manage patients, doctors, appointments, and records
- Used foreign keys, constraints, and normalized relational schema

DreamDay Rentals – React

- Designed a multi-page wedding rental application with state management and responsive layout

Expense Tracker App – HTML, JavaScript, Chart.js

- Tracked and visualized daily expenses using dynamic charts and dashboard widgets

KeyPower Website – Next.js, TypeScript

- Developed a professional, mobile-friendly company site with modern layout

TrendMart E-commerce Platform – Java, Spring Boot, React, PostgreSQL

- Developed a full-stack e-commerce site with authentication, product management, and cart functionality
- Secured backend using JWT and managed migrations with Flyway

---

Technical Skills

Languages: Java, JavaScript, TypeScript, SQL, HTML, CSS, PHP
Frameworks & Libraries: React, Next.js, Tailwind CSS, Chart.js, Spring Boot
Backend: PostgreSQL, REST APIs, JWT Authentication, DAO Pattern, XAMPP
Tools: Git, IntelliJ IDEA, VS Code
Concepts: Object-Oriented Programming (OOP), MVC Architecture, Multithreading, Database Normalization
Other: Artificial Intelligence (AI), Python Programming, Digital Marketing Tools

---

Awards & Certifications

- ALX AI Essentials Certificate
- SheCanCode Frontend Certificate
- SheCanCode Backend Certificate
